TIPS FOR GROWING GREAT BELL PEPPERS

Full Sun
6–8 hours of sunlight each day.

Warm Soil
Plant after last frost when soil is warm.

Water Regularly
Keep soil evenly moist, not soggy.

Feed Often
Use a balanced fertilizer every 2–3 weeks.

Mulch
Helps retain moisture and suppress weeds.

Harvest Green or Ripe
Peppers can be harvested green, orange, red, or yellow.

Grow a rainbow of bell peppers and enjoy fresh flavor all season long!
