

ORGANIC PEST CONTROL

Healthy plants • Healthy garden • Naturally!

Work with nature to protect your garden!
These organic methods help keep pests away
without harming beneficial insects or the environment.

PREVENTION IS KEY

- Start with healthy soil and healthy plants.
- Water deeply and consistently.
- Space plants for good air circulation.
- Rotate crops each season.
- Use mulch to suppress weeds and discourage pests.
- Encourage beneficial insects and birds.

ENCOURAGE BENEFICIALS

Ladybugs
eat aphids,
mites & more

Lacewings
devour aphids,
thrips & eggs

Bees
help pollinate
your plants

Birds
eat caterpillars
& beetles

PLANT FLOWERS & HERBS THAT ATTRACT BENEFICIAL INSECTS!

Marigold, dill, fennel, yarrow, cosmos, borage, alyssum, lavender & more.

A BALANCED GARDEN
IS A RESILIENT GARDEN

NATURAL PEST DETERRENTS

Garlic Spray – Repels aphids, mites & beetles

Neem Oil – Controls many soft-bodied insects

Insecticidal Soap – Kills aphids, whiteflies & mites

Hot Pepper Spray – Deters chewing insects

Diatomaceous Earth – Helps control crawling pests

COMMON PESTS & ORGANIC SOLUTIONS

APHIDS

SOLUTIONS:

- Spray with neem oil
- Introduce ladybugs
- Use insecticidal soap
- Plant dill or nasturtiums

CATERPILLARS

SOLUTIONS:

- Handpick regularly
- Use Bacillus thuringiensis (Bt)
- Encourage birds
- Plant dill, fennel or parsley

WHITEFLIES

SOLUTIONS:

- Yellow sticky traps
- Spray with insecticidal soap
- Neem oil helps control
- Keep plants well-watered

SPIDER MITES

SOLUTIONS:

- Spray with water
- Neem oil or insecticidal soap
- Keep humidity up
- Avoid over-fertilizing

SLUGS & SNAILS

SOLUTIONS:

- Handpick at night
- Use diatomaceous earth
- Set beer traps
- Keep garden clean

HOMEMADE SPRAYS

GARLIC SPRAY

Blend 4 cloves garlic
in 2 cups water.
Let sit overnight.
Strain and spray.

NEEM OIL SPRAY

Mix 1 tsp neem oil,
1/2 tsp castile soap
in 1 quart water.
Shake well & spray.

HOT PEPPER SPRAY

Blend 2–3 hot peppers
in 2 cups water.
Strain and add a drop
of soap. Spray.

COMPANION PLANTING

Use plants that repel pests naturally.

Basil
repels flies
& mosquitoes

Marigold
repels nematodes,
aphids & more

Nasturtium
attracts aphids
away from crops

Chives
deter aphids,
mites & beetles

KEEP IT CLEAN

Remove dead
leaves & plant
debris.

Dispose of
infested plants
properly.

Keep tools
clean to avoid
spreading pests.

USE TRAPS

YELLOW STICKY TRAPS

Catch whiteflies,
aphids, fungus
gnats & more.

BEER TRAPS

Bury a dish
of beer to trap
slugs & snails.

A BALANCED GARDEN THRIVES!

Healthy soil, diverse plants, and helpful
insects are your best defense!

NATURE HAS THE BEST SOLUTIONS—LET YOUR GARDEN THRIVE THE ORGANIC WAY!
