Garden Benefits
Why It Helps

VEGETABLE	GOOD COMPANIONS ♥	BAD COMPANIONS ☹	BENEFITS 💡
 TOMATOES	• Basil • Marigolds • Garlic • Carrots	• Cabbage • Broccoli • Fennel • Walnuts	 Basil improves flavor and repels pests. Marigolds deter nematodes and attract pollinators.
 CARROTS	• Onions • Leeks • Radishes • Rosemary	• Dill • Parsley	 Onions and leeks repel carrot flies. Rosemary improves growth and flavor.
 LETTUCE	• Radishes • Strawberries • Chives • Marigolds	• Celery • Parsley	 Radishes loosen soil and mature quickly. Marigolds protect from pests.
 PEPPERS	• Basil • Oregano • Carrots • Marigolds	• Fennel • Kohlrabi	 Herbs improve flavor and deter pests. Marigolds protect roots.
 BEANS	• Corn • Marigolds • Cucumbers • Nasturtiums	• Onions • Garlic	 Corn provides support and shade. Nasturtiums attract beneficial insects.
 CUCUMBERS	• Dill • Nasturtiums • Radishes • Marigolds	• Potatoes • Sage	 Dill attracts helpful insects. Nasturtiums deter aphids and beetles.
 CABBAGE (Family)	• Dill • Celery • Chamomile • Nasturtiums	• Strawberries • Tomatoes	 Dill and chamomile attract beneficial insects and help repel cabbage pests.
 ONIONS & GARLIC	• Carrots • Beets • Lettuce • Chamomile	• Peas • Beans	 Strong scent repels many pests and helps protect neighboring plants.

Quick Tips

- ♥ Plant flowers like marigolds, nasturtiums, and calendula throughout your garden to attract pollinators and deter pests.
- ♥ Rotate your crops each season.
- ♥ Healthy soil = healthy plants!
